

Music Technology Enrichment

Music Technology is a great way to continue being part of the music department without taking the full Music A Level. These lessons will show you how to use the new Music studio in the department. We will be recording live music, performing music and learning how to mix live sound. You will be able to take part in school concerts, using the mixing desk in the hall.

We will be using Cubase 7.5 to create music and mix music that we have recorded.

There are opportunities to perform in school and outside of school in the local area.

We will also be looking at Popular Music from 1910 to the present day. We look in greater detail at certain genres such as Soul, Indie and Club Dance.

If you are interested and would like more information please come and see me.

Miss Natalie Glover

Head of Music
